I am truly lost – I can't even get a message to the SharePoint help desk. Do you have a phone # for them?

Hi there Paula. Thanks for the email. I not sure if you have contacted the SharePoint Helpdesk yet or not but they will be your first line of support. Their number is listed on the My WorkPlace website. Also if you are looking for how to do something specific in SharePoint try Googling it and there is a lot of information out there for you. Have a good day. Always Adrea

Jack or Adrea – I need some help with this SharePoint webpage that I had you set up last fall. I am finally getting around to using it and I really don't know the 1st thing about getting in to it – and putting documents on the SharePoint and giving designated people inside and outside the agency access.

Can one of you help me or direct me to someone who can? Thank you.

Changed the https: name

You will have in other email.

Created site-took a while because of some testing for outside user issues in the past.
